Subject Index

ability-attitude differences, influences on 642

abuse
and eating disorders 213
child and adolescent perpetrators 1109
childhood STD 946
children, mother and teacher assessment 917
developmental psychopathological perspective 1085
education and developmental research 1096
educators 875
ethnic differences 925
impact on children with pervasive developmental disorders 914
interpretation of facial expression 943
perpetrator gender 936
physical and bulimia 933
physiological and cognitive correlates of 895
potential for 900
psychosocial aspects in Malaysia 915
psychiatric status of child 540
risk for substance abuse 513
risk in low-income children 918
self-esteem and family functioning 941
sexual and prediction of symptomatology 911
stability and change 546
substance and individual and peer characteristics 901

abused children, family and group treatment 361

academic
adjustment in early adolescence 986
competence, rural African American youths 964
success and failure, effects of gender 148

academic performance
influences on 135
relationship to teacher and parent ratings 317

accidents, gender and age 757

achievement
adoptive siblings 503
Colorado Adoption Project 507
illness 466
individual differences 671
instructional approaches 505
motivation 422
motivation and child disabilities rearing 494
African-American children 292
Brazilian children 160
cross cultural comparison in mathematics 968
evaluation, changes in 310
gender differences 166
influence of teachers' perceptions 150
maternal employment 1082

acoustic stimuli, reactions to 35

action and cognition 61

action, understanding of 463

active processing and examining in infancy 96

ADD and ADHD
antisocial behavior 561
clinical variants 515
effects of methylphenidate 950
enuresis 892
influence of stimulants on thinking 903
parents one-year recall reports 906
meaningfulness of diagnosis 559
prediction of 544

addition, strategies used 149

adjustment
compensatory processes 319
in young adolescence and factors influencing 287
peer social status as contributors 322

adoptees, adolescence and behavior problems 574

aerobic exercises, effects of cognitive and behavior 368

affect regulation 525

affective disorders, antecedents of 701

African-American
children and achievement 292
families, conceptual framework 1104
fathers' involvement with infants 280

age position, effects of 506

aggression and aggressive behaivor
assessment of 1115
hyperactivity 567
naturalistic observation 1102
peer relations 633
understanding of and attributional analysis 1001
development of 533
groups social context 256

alcohol, prenatal exposure and attention 772

alcoholic parents, adolescent personality 572

amnesia, development of personal narratives 798

analogical problem solving, surface and relationship similarity 103

anger
causes of 1023
children's reactions to 975
dimensions of arguments 609

antisocial behavior
boys, relationships during adolescence 605
development of 984
prediction of 1083

anxiety
assault, sexual 566
disorders, fluoxetine 516
disorders, identification of 534
disorders, psychosocial correlates of 541
disorders, toward an integrated model 347
reduction of 1056
self-report symptoms 529
symptoms, inheritability of 571

arithmetic
early skills and income level 816
infants understanding of 854
knowledge, knowledge in preschoolers 787

arousal modulated visual preferences in infancy 803

assessment, methods for infants and toddlers 1112

asthma, family dysfunction 753

at-risk
Black male adolescents, influences on 265
development of 994

attachment
anxiety disordered 539
breaking the cycle of immature 736

classification, maternal interactions 1058
day-care 308
effects at 16 years of age 191
infant twins, effect of maternal separation 274
influences of temperament and mothering 323
patterns of 249
predictability 325
risk for psychopathology 1088
security of 1074
stability 242

attention
development of 417
developmental differences 432
effects of otitis-media 54
focus, development of children's knowledge of 799
infant and role of objects parts 627
problems, teachers' perceptions 152

attentional deficits in hyperactive children 198

attraction in children, behavioral concordances 662

attractiveness
infants and prediction of maternal behaviors 1019
physical and predictors of 1040

attributions, study of 488

audition, time and intelligence 791

auditory perception, evaluation of 717

auditory-visual
distance, perception of 102
infant response 85

autism
adaptive behaviors 939
care for children with 217
child, stories narrated by 568
child, understanding by 550
children, compliance with parental prohibitions 171
cooperative arts programs 940
disorders of regulation and cognitive activity in 890
facilitated communication 545
joint attention and social-emotional behavior 725
play behavior 921
review of early identification 366
self-competence 520
siblings of children with 1047
sociodramatic play 947
theory of mind 565
understanding transformations 194
verbal representation 200

Bedouin children, sociometric status and cognitive development 28

behavior and behavior problems
children's and teachers' management styles 888
influence of 176
nonresident parents 228
parental psychological and behavioral control 237
prediction and explanation 221
problems and adolescence, review of 334
problems, control of 251
problems, low income families 215
teachers' perceptions of 305
temporal regulation of 50

behavior disorders
disruptive 741
origins of 595
predictors of 511, 512
preschool child 695
treatment of 698

behavioral inhibition, malleability of 230

behaviors, individual differences 350

beliefs, understanding of 98, 429

Bender-Gestalt test 692

bilingual child, metalinguistic awareness 425

bilingualism, and development of *segmental phonological production* 851

bipolar affective disorder
comorbidity 919
mania-like symptoms 953
recovery in adolescents 942
treatment of 1093

birth
evolutionary environments 735
MZ and DZ rates 755

birth order
and homosexuality 960
personality attributes 648
vocabulary development 468

Black gifted students, identification of and review 335

Black migrant children, psychosocial status 293

brain damage, long term effects 443

brain, developing and human behavior 372

breast-fed infants and iron status 764

bulimia nervosa, perceptions of non-shared environment 577

bullying, review of facts and effects 353

cancer
childhood and parents attributions 608
siblings of children with 11

cardiac activity, infancy 6

care and abuse, review of 329

caregiving behavior, social cognitive correlates 271

caring behavior and mothers' depression 304

categorical responding, and sensory development 469

categorical scope, evidence for 805

categories
acquisition of 91
development of exclusivity 52
hierarchies, understanding of 30
types of feature information 124

categorization and spatial relations 416

causal
attributions and events 44
thinking and magical beliefs 111

causality, perception of 95

central auditory processing and language deficits 73

cerebral palsy, vocabulary 391

child abuse, implications of stress management 321

child custody, determinants of 991

child development, advances in 382

child disabilities
characteristics and placement 489
rearing and achievement motivation 494

child drowning and neglect 187

child health in Egypt 387

child welfare, analysis of states policies 272

child's emotions and empathy, measures of 597

childbearing
adolescence and grandparental coresidence 231
theoretical framework 352

child-care
kindergarten 240
social and cognitive competence 80

childhood, early and behavioral characteristics 18

child-rearing
and violence 278
problems, mothers solutions to 1044

children's development, influences on 1007

chronic fatigue syndrome 690

civil liberties, conception of 448

classroom testing, reactions of student and teachers 169

cleft palate feeding interactions 318

cocaine
exposed infants, head circumference 769
exposure, effect on mother- infant interaction 8
exposure, follow-up 398
meconium analysis 767

cognition and cognitive abilities
action 61
curiosity 23
mothers' attributions 74
sibship structure and cognitive style 42

cognitive function and behavioral deviance 514

cognitive development
mechanisms of everyday 1123
time window in 1105

cognitive style
impulsiveness 218
sibship structure 42

cognitive tasks
gender differences 796
genetic and environmental variance 842

cognitive test, performance on and influential factors 188

colic, sleeping patterns 637

collaborative relationships, teacher preferences 501

communication and communication skills
assessment of 456
development of 440
language 72
maternal attitude 115
patterns of in racial/ethnic contexts 145
social status 586

communities, contexts for adolescence development 587

comorbidity
Armenian earthquake 908
of matched clinical samples 199

competence
and memory 523
development of 591
effects of preschool intervention 887
predictors of 392
problems solving, twin study 904

competitive attitudes, longitudinal study of 669

compression and production, overextension of 838

conceptions of forests by children 862

conditional reasoning
conditional reasoning 458
development of 114

condom use, inner city youth 675

conduct disorder
genetic factors 898
predictors of 537

conflict
child's choices 622
resolution and ethnicity 910

congenital adrenal hyperplasia and rough and tumble play 12

conservation
electrophysiological correlates 834
microgenetic study of 853

contamination sensitivity, role of physical contact 120

context and interpretation of big and little 51

contingency and Down syndrome 202

control and time perspective, adolescence 479

controlling children, correlates of behavior 1057

controversial children, academic lives of 1072

cooperative and competitive behavior, Kenyan children 992

cooperative learning and whole class instruction 165

coparenting
during toddlerhood 995
early school-age children 311
spousal differences and hassles 957

coping skills, temperament 248

course selection, gender differences 168

creativity
across domains 26
and private speech 434

critical thinking, development of 510

criticisms, sensitivity to 233

cross-cultural
abuse and psychosocial aspects 915
child abuse 900
comorbidity and earthquake 908
cooperation and competition 992
development of fears 902
Down syndrome 897

family dynamics and school achievement 877
father involvement 1048
gender differences 966
hopelessness 1053
math achievement 802
mathematics achievement 968
mothers perceptions of infants 1062
occupational and family differences 999
parenting styles 1051
perinatal loss 828
play 985
school performance 861
self-image 1055
smoking 1012
social functioning 969
suicide 920
underachievement 1067

cross-cultural experiences
Australian children and friendships 236
Bedouin children and cognition 28
Brazilian children and achievement 160
Brazilian children and intelligence assessment 97
Chinese children and acquisition of English 83
Chinese parenting 250
Croatian children and war 15
English children and crying 17
English children and emotions 76
German children and attachment 325
Greek children and behavior problems 305
Indian children and emotions 76
Korean children 299
Korean children and experiences in Japan 299
Kuwait children and school misbehavior 264
Manalian children and crying 17
Norwegian children, sexual abuse 174
South African children and psychosocial status 293
Spanish children and language 31

crowding, perceptions of 855

crying patterns 17

cued recall 800

curiosity and cognitive ability 23

custody evaluation, review of procedures 341

Cyprus, family dynamics and school achievement 877

daughtering and mothering 742

day care
and attachment 308
care, stability and toddler's behavior 238
injuries 638
long term effects of 607
mother infant attachment 607
reading book intervention 137

day treatment and interpersonal behavior 893

decision making
and the representatives heuristic 790
in adolescence 36

delinquency
contributing factors 727
psychological traits 627

depression
adolescence 178, 522
adult outcomes 190
affect regulation 525
and sexual abuse 196
anger symptoms 530
changing behaviors 1038
characteristics of 535
EEG activation 987
effect on memory 452

effects of 558
exposure to suicide 519
factors contributing to 974
first time mothers 967
growth hormone 404
hopelessness in children 1035
infants of 1006
maternal and child disabilities self-esteem 526
maternal and child psychopathology 945
maternal and early attachment 1065
parental and security 973
parental and age and gender specific effects 1005
sex-specific causal factors 569

reactions of young children with 205

drug exposure
prenatal and coping 400
review of long-term effects 360

drug use
exposure to and temperament in infants 794
family and peer influences 247
parent personality and parenting 965
prediction of 894

dual-career couples and parental role quality 239

dynamic systems, review of 330

dyslexia, treatment of 159

dysphoric mothers, sensitivity of 998

eating disorders and eating problems
childhood abuse 213
disorders 927
effect of age and menstrual status 527
prediction of 189

eating, characteristics of choosy eaters 768

ecological research, theory and method 739

economic literacy and economic prosperity, understanding of 123

educational psychology, review of trends 331

efficacy of psychoanalysis 570

efficacy-expectation/performance 685

emotions and emotional development
autonomy, analysis of 993
communication and emotional competence 254
developmental sequence 328
negative and gender differences 976
preschoolers 255
problems in primary care 924
regulation, development of 707
regulation of 439
review of emotional regulation 336
understanding of 76

empathy, psychophysiological correlates of 579

encopresis, behavior management 954

engagement, effects of classroom structure and disability 835

English, acquisition of by Chinese children 83

enuresis and ADHD 892

epilepsy, predicting behavior problems 204

ethical issues in research 1080

ethnic cleansing, adolescent survivors 948

ethnocultural parents education, review of 359

Euclidian quantity, estimation of 486

events reports, influences on 104

evidence, negative evidence on 836

exceptionalities, case study 500

excuse giving, attributional analysis in African American children 1000

expectations by child and family genetics 728

explanations of events 471

eye movements, analysis of 403

eyewitness identification
suggestibility 823
suggestibility and memory 776

face identification, development of 426

factive suppositions, linguistic intuition about 53

failure to thrive and touch 551

family
imbalance 737
influence, limits of 384
problem solving effectiveness 663
psychosocial interior 1119
relationships, renegotiating 1114
structure, Japanese adolescence 624
support, impact on children 630

fantasy and reality, distinguishing 112

father involvement
cognitive outcomes 578
disabilities 687
impact of delayed 625
in household work, Jamaica 1048
longitudinal study of 235

fatherless families and health 369

fear
control by young children 971
stability and prediction of in Chinese children 902

fixation in infants
individual differences 784
visual and neural mechanisms 1086

food refusal, treatment of 498

forgetting, development of and learning 779

foster care
adolescence 281
review of research agenda 338

friendship
adolescence in Australia and United States 236
behavioral variables 260
predictors of 298
problem behaviors 686

functional relationships, understanding of 113

fuzzy-trace theory 729

gay adolescents
impact of victimization 913
problem behaviors 935

gender and gender constancy
bias, perceptions of personality traits 656
course selection 168
influence of gender labeling 282
influences of 289
role, flexibility 639
role orientation, self-competency in males 659
roles, adolescence attitude towards 679
